3. How to change text on any .html files:

For example, if you see `<p> </p>`, you can edit what you need in between.

```
83
84 <main>
85 <h1>JET Christian Fellowship (JCF)</h1>
86 <h2>Welcome!</h2>
87 <p> Established in 1988, JCF is an association of individuals who share a common faith in Jesus Christ and/or a common interest in christianity.
88   JCF's mission is to encourage and support Christian participants of the JET program
89   by helping them connect with local churches as well as other Christians living in Japan.
90   On this website, we have information on a wide variety of topics, like joining a JCF retreat or how to access our library.
91   There are also Bible study and prayer groups that take place over the internet via Skype.
92   If you would like to receive news and information about future events,
93   please follow us on Instagram, Twitter, and join the JET Christian Fellowship group on Facebook.</p>
94
95 <p>Contact a JCF team leader at:<br>

97
98 </main>
```

4. How to change photos:

For example, put some photos into the “images” folder. Then, edit the .jpg or .png file.

```
87 <h1>Retreats</h1>
88
89 <p> JCF Retreats are usually held biannually, over a long weekend in a central location in Japan.
90   On average, nearly 30 JETs, non-JET foreigners, as well as Japanese people attend JCF retreats.
91   If you haven't attended one yet, we highly recommend them!<p>
92   <p>
93
94   Next Retreat: <b>Golden Week 2022</b> (details are 'to be confirmed')</p>

106  </div>
107
108  <blockquote>
109    "JCF Retreats are always fun and memorable experiences for me.
110    I'm currently the only foreigner at my church so I don't often get to learn and worship in English.
111    It can feel a bit isolating at times. That's one of the reasons the retreats mean so much to me.
112    It's wonderful to be able to fellowship and worship together with other English speakers who are in roughly the same situation.
113    It's definitely a refreshing time, spiritually and culturally.
114    The friends I've made at these retreats are true friends who will stay in my heart for years to come." - Megan Daniel
115  </blockquote>
116
```

Sidenote! WordPress is a nice software for complex websites and that merit of it. It makes it somewhat easy, but the downside is that you still have to learn it once more, and is a learning curve when you change the theme of JCF or upgrade WordPress some years later. The old-school way without WordPress is very light and if the website is simple, then not so complicated at all.
